

## Entering a specific profile from an iOS or Android device

1. Go to **Admin Client**.
2. Log-in to the proper **Server**.
3. Install the application on **iOS** or **Android** devices.
4. Launch the application on a device.
5. Find the appropriate player profile in **Admin Client** (the one from a device) and select it.

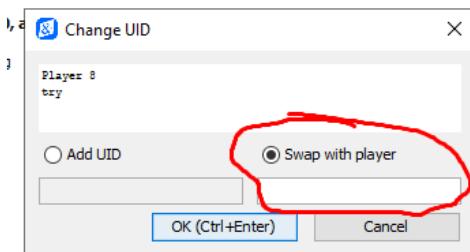

A screenshot of a computer interface showing a list of player profiles. The interface includes search bars for 'Search by player' (Auto selected) and 'Search by alliance' (Tag selected). Below these are two checkboxes: 'Online' and 'Refresh'. The main table has columns for Id, Name, Tag, Title, City Level, and Online status (indicated by a checked checkbox). The data shows 16 entries, with Player 8 highlighted by a red circle. The highlighted row contains: Id 8, Name Player 8, Tag Qwr, Title leader, City Level 15, and Online status checked. Other players listed include Player 17 through Player 1, and Player 10 through Player 1.

Search by player		Search by alliance			
Auto		Tag		Online	Refresh
Id	Name	Tag	Title	City Level	Online
16	Player 17			1	<input checked="" type="checkbox"/>
15	Player 16			2	<input type="checkbox"/>
14	Player 15			2	<input type="checkbox"/>
13	Player 14			2	<input type="checkbox"/>
12	Player 13			1	<input type="checkbox"/>
11	Player 12			2	<input type="checkbox"/>
10	Player 11			2	<input type="checkbox"/>
9	Player 10			2	<input type="checkbox"/>
8	Player 8	Qwr	leader	15	<input type="checkbox"/>
7	Player 9	QWR	equipe	15	<input type="checkbox"/>
6	Player 6			1	<input type="checkbox"/>
5	Player 5			2	<input type="checkbox"/>
4	Player 4			2	<input type="checkbox"/>
3	Player 3			2	<input type="checkbox"/>
2	Player 2			1	<input type="checkbox"/>
1	Player 7			2	<input type="checkbox"/>

6. Tap on the **Change UID** button.

7. Select the **Swap with a player** option and enter the **ID** of the profile you want to swap.

8. Tap on the **OK** button.

9. Profile should be successfully swapped and could be now entered from the device.
